

Fair & reasonable fees for medical professional services

The figures below which we consider to be fair and reasonable are the maximum amounts we pay for surgeons', anaesthetists' and consultations. This list may be updated from time to time at our discretion.

Furthermore, please always make sure to contact GasanMamo before undergoing any treatment, to confirm that you will be covered.

When multiple procedure codes are performed concurrently, the below approach is used to determine the appropriate fee payable by the insurer.

- 1. For two procedures performed in a single operation, a 25% markup is added on top the 100% of the fair and reasonable fee we pay for the most complex procedure.
- 2. For three or more procedures conducted in one operation, a 40% markup is added on top the 100 % of the fair and reasonable fee we pay for the most complex procedure.

This approach guarantees reasonable compensation while preventing inappropriate "unbundling" of procedures. Several coding principles guide this process, including considerations for procedures already included in others, similar/identical procedures, and the availability of more appropriate codes.
