### Important Information:

1. Charges must be fair & reasonable - This means that charges for a medical service received both as out-patient and in-patient are to be fair and reasonable. We determine what is a reasonable fee through our experience and taking into account the service provided, by whom it was provided, that it is similar to other treatment providers and the geographical area where the treatment was received. For surgical procedures we consider the complexity of the treatment involved, the degree of professional skill and other relevant factors. A list with the most common surgical procedures and out-patient services can be found on our website: [www.gasanmamo.com](http://www.gasanmamo.com). The list may be updated from time to time at our discretion. If one is insured on one of our Vital or Key Plans which include limited cover outside of Malta, the local fair and reasonable fees shall apply however, if insured on an EU or International Plan we shall consider fair and reasonable fees by taking into account the average cost of the treatment for that particular country or region.
2. Charges must be incurred in a participating hospital - A hospital/clinic which we recognize as one of our supporting hospitals/clinics at the time that treatment is to be received. The list of participating hospitals/clinics can be found on our website [gasanmamo.com](http://gasanmamo.com)
